**Sample #00115851**

**Trainer: David R. Vance (D.O.B. 8/22/1940)**

Upon receipt of notification from the LGC Science, Inc. Laboratory, the official chemist for the Kentucky Horse Racing Commission, and confirmed at Texas A & M Veterinary Medical Diagnostic Laboratory (TVMDL Sample Laboratory number D182280640), sample number 00115851 taken from ALTITO in the tenth race at Churchill Downs on April 28, 2018 tested positive for dextromethamphetamine in blood (Class A). After a formal hearing before the Board of Stewards, it is determined that the presence of dextromethamphetamine in the blood sample is cause to disqualify ALTITO and order all purse money forfeited. After review of all testimony and investigative evidence presented at the hearing, and considering all mitigating and aggravating circumstances, there is no further penalty to the owner or trainer warranted. Pari-mutuel wagering is not affected by this ruling.
